SUMMARY

AI/ML engineer with a strong foundation in Python, Machine Learning, and Deep Learning, with practical experience in building intelligent systems using Scikit-learn, TensorFlow, and PyTorch. Adept at developing GenAI-powered applications leveraging LLMs, RAG, and Agentic AI workflows. Comfortable working across the full AI development lifecycle – from model building to deployment using Flask, Docker, and containerized environments.

TECHNICAL SKILLS

Programming Languages: Python, SQL, Java
Frameworks & Libraries: TensorFlow, PyTorch, Keras, Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, Flask
AI/ML & GenAI: LLMs, RAG, Agentic AI, NLP, GANs, OpenAI APIs
Developer Tools: Git, GitHub, Docker, Kubernetes, Jupyter Notebook, Kaggle

PROJECTS

- FakeReview Sentinel** | [Live Demo](#) | [Code](#)

Nov 2025 – Dec 2025

E-commerce ML Project *Python, Scikit-learn, XGBoost, NLP, SHAP, Pandas, NumPy, Flask, Docker*

- Engineered a multi-signal ensemble classifier (combining Naive Bayes, Random Forest, and XGBoost) using soft-voting to fuse textual sentiment (NLP) with user behavioral metadata, achieving 89.2% accuracy and 92.4% ROC-AUC.
 - Engineered features like review sentiment polarity, posting frequency, verified-purchase ratio to flag suspicious reviewer patterns. Designed and deployed a containerized Flask API and interactive dashboard using Docker.
- ContentPulse** | [Live Demo](#) | [Code](#)

Jan 2026 – Feb 2026

GenAI + Social Media Project *Python, LangChain, ChromaDB, OpenAI API, Flask, RAG, Docker*

- Built ContentPulse, a production-grade GenAI platform that generates platform-specific social media content using a RAG pipeline (LangChain + ChromaDB) for brand-context retrieval and OpenAI GPT for content generation.
 - Features real-time Google Trends integration, automated NLP quality scoring (VADER + Flesch), and a BYOK dashboard deployed on Hugging Face Spaces via Docker.

EXPERIENCE

- Software Development Intern**

Feb 2026 – May 2026

FOSSEE, IIT Bombay *Python, ifcopenshell, OpenCASCADE, SQLite*

- Built an IFC Export Pipeline for Osdag (IIT Bombay) supporting structural connection types using ifcopenshell, enabling BIM interoperability with Revit, Tekla, and BIMcollab.
 - Implemented high-LOD geometric accuracy and dynamic SQLite-driven IFC Property Sets across both Osdag and OsdagBridge, extending the pipeline to IRC-compliant bridge components.

EDUCATION

- VIT Bhopal University, Bhopal**

CGPA 8.63

B.Tech in Computer Science Engineering (AIML)

2023 – 2027
- Smt Sridevi Awasiya Vidyapeeth, Agra**

87%

XII, CBSE

2022
- Ragendra Swarup Public School, Agra**

90.2%

X, ICSE

2020

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified Data Science Professional (Oracle) | [View Certificate](#)
- Applied Machine Learning in Python (University of Michigan) | [View Certificate](#)
